

## Run sheet Driver/Rider- Competencies covered

This run sheet will assist in the development of the driver/rider on the reverse side is an area to record further information.

In the run column mark			
Competence Levels: 1 = Commend 2 = Satisfactory 3 = Requires Development			
Name	Run no.	Observer comments	
Anonymous	5		
Preparation	Pre-Drive/Ride Checks	3	C
	Fitness/Eyesight check	2	
	Cockpit Drill (car only)	3	C
	Rolling brake test	3	B – Release the brake before stopping
	Knowledge – IPSGA	3	C
Information	Observation – scanning	3	C
	Use of mirrors and rear observation	3	C
	Take, Use, Give (TUG)	3	C
	Road signs and markings	3	C
	Anticipation	3	C
	Hazard management	3	B
Position	Bends	2	
	Junctions	2	
	Roundabouts	3	A
	Overtaking	3	D
	Hazard prioritisation	3	C
	Vulnerable road users	2	
Speed	Speed limits	2	
	Acceleration sense	3	D
	Limit point	3	C
	Braking technique	3	C – Harsh. Start braking earlier
Gears	Clutch and changing gear	3	B
	Choice of gear	3	B
	Timing of changes	3	C

		Run no.	Observer comments
Acceleration	Smoothness	3	C
	Anticipation and planning	3	C - Plan further ahead
	Hazard awareness	3	C
	Progress and restraint	3	C
Other skills	Steering	3	C - Better this time
	Slow manoeuvring	3	D
	Knowledge H/code & course material	3	C
	Courtesy to other road users	3	A
	Vehicle/machine sympathy	3	B
	Spoken thoughts (car only)	3	C - Need to add signs

## Run sheet - Observer Notes

Date:	17/9/2017	Weather conditions	Good/Dusk	Observer Name	D Rushfirth
-------	-----------	--------------------	-----------	---------------	-------------

### Observer Comments

- Another generally safe drive.
- Still has poor recollection of IPSGA, cockpit drill and Highway Code.
- You still need to look ahead much further and develop your driving plan much earlier.
- Pull – push steering technique need work as you have a tendency to just use half of the wheel.

### Development Plan

- Gear changing has improved now you need to work on the timing of the changes.
- Look at your pull-push steering and let both your hands move from top to bottom of the wheel. See the link to the video.
- Your minimal knowledge of the Highway Code will hold you back. You need to study this important book more.
- Practice the Cockpit Drill I demonstrated before the drive. You will need to deliver this on test.
